Humanity
The objective of the distributed web is to protect human rights, and empower peoples, particularly those facing systemic inequities.
We condemn use of distributed tools for activities antithetical to human rights.
We encourage the development of tools and applications in many languages and forms to ensure accessibility.
05.
Ecological
imperatives
We aim to minimize ecological harm and avoid technologies that worsen environmental health.
We work towards reducing energy consumption and device resource requirements, by allowing repair, recycling, and recovery.

Principles
These define the values of a decentralized web based on enabling agency of all peoples — the basis for behavioral norms and mutual accountability to bring about a more just and equitable world.
These stand alongside other sets of principles that share or expand upon these values, and originate from those involved with and convened by the Internet Archive's work on the decentralized web. This is a summarized version of the principles.
